HIMANSHU

MERN Stack Developer

Profile Summary

MERN Stack Developer with hands-on experience in building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Completed MERN Stack development training from IIT Kanpur, gaining practical experience in REST API development, database integration, and full-stack application architecture. Previously worked as a Web Development Intern at CodeSoft, focusing on responsive frontend development, UI optimization, and collaborative development using Git and Agile practices.

Education

- **Bachelor of Computer Application**
IMS, Ghaziabad University Courses Campus 2023-2026
- **Intermediate**
Saraswati Bal Mandir Sr. Sec. School 2022 - 2023
- **Matriculation**
Saraswati Bal Mandir Sr. Sec. School 2020 – 2021

Professional Training

- **IITK (PROFESSIONAL TRAINING)**
MERN Stack Development Program
Indian Institute of Technology Kanpur (IITK)
 - Completed hands-on training in React.js, Node.js, Express.js, and MongoDB
 - Built full-stack applications with REST APIs, authentication, and database integration
 - Gained practical experience in backend architecture and deployment workflows

Internships

- CodeSoft | Remote
Web Development Intern 06/2025 – 07/2025
- Built responsive UI using HTML5, CSS3, JavaScript, and React.js
 - Converted Figma designs into reusable, component-based interfaces
 - Collaborated using Git and GitHub within Agile workflows
 - Debugged and optimized UI issues, improving responsiveness by 15%

Projects

[MedEase](#) – Medical Report Analysis System

- Developed a web application to analyze medical lab reports and extract key health parameters
- Built the frontend using React.js with reusable components and responsive layouts
- Implemented backend APIs using Node.js and Express.js as part of MERN development
- Stored and managed report data using MongoDB
- Focused on presenting insights through a clear, user-friendly interface.
